The grant award will be delivered at the virtual award ceremony on April, 25th, 2023 at 5:00 Eastern time.

HOBBLEJOG FOUNDATION

Helping TBI Survivors Thrive

NOTICE OF GRANT OPPORTUNITY

HOBBLEJOG FOUNDATION

The HobbleJog Foundation was created to help improve the quality of life for individuals with traumatic brain injury (TBI). Our primary focus is to support proven and innovative post-acute services that strengthen the independence, productivity, and well-being of TBI survivors.

We provide grants on a national scale to qualified organizations that provide post-acute resources. Our grants are funded by donations derived from our fundraising efforts.

TRAUMATIC BRAIN INJURY

According to the Centers for Disease Control, TBI is a leading cause of death and disability for all age groups in America affecting as many as 1.5 million Americans. It's often referred to as the "invisible injury" because many individuals experience cognitive, emotional, and motor skill challenges long after the more obvious injuries have healed.

As a result, individuals with brain injury can often benefit from services that complement and strengthen their cognitive functions as well as reinforce their social and emotional well-being.

GRANT DESCRIPTION

The HobbleJog Foundation seeks proposals from organizations that provide post-acute services benefiting people living with a TBI.

Post-acute services include but are not limited to; technology services to assist in the regaining of memory, focus, and goal-setting functions, neuropsychological evaluations and interventions, adjustment counseling

services, stress interventions, vocational training, transitional home, and community support.

Examples of past grant funding include:

1. LifeBridge Health Brain Injury Services, Baltimore MD. This grant helped provide intensive post-acute care services including providing technology services to assist in the regaining of memory, focus and goal setting functions.
2. Brain Injury Association of North Carolina. This grant allowed BIANC to provide a week-long camp for TBI survivors.
3. Technology Support Grant. This grant provided technology support to a TBI survivor accepted to college.
4. Love Your Brain. This grant allows TBI survivors to participate in the *Love Your Brain* program at no cost to them. *Love Your Brain* provides yoga, retreat, and mindset programs to build community and foster resilience for people affected by TBI.
5. Brain Injury Association of Maryland. The BIAMD grant helps the organization reach and advocate for individuals and families impacted by traumatic brain injury.
6. Brain Education Strategies & Technology (BEST). The BEST grant helped fund a pilot iOS app training program to help 10 young adults with brain injuries return to school or the workforce. BEST is a non-profit organization with a national focus on helping traumatic brain injury survivors regain their independence and productivity.

AWARD DESCRIPTION

Grants are typically between \$5,000 and \$15,000 for one year. For 2023, the HobbleJog Board has agreed to award two grants. The first grant will be awarded on April 25, 2023.

The selected grant recipients will receive a check in the award amount made payable to the organization.

The HobbleJog Foundation requires that grant recipients publicly acknowledge the grant assistance and how the funds directly benefit TBI survivors in their social media and publicity platforms.

ELIGIBILITY REQUIREMENTS

Applications may be submitted by organizations including health care facilities, advocacy organizations, and private businesses provided the primary focus is providing post-acute services directly to individuals with traumatic brain injury.

Preference will be given to non-profit organizations located within the United States.

APPLICATION SUBMISSION

The deadline for applications is midnight Eastern Time on March 31, 2023. A HobbleJog representative will confirm receipt of the application by email within 48 hours.

REVIEW PANEL DATES

The HobbleJog Foundation will convene a Review Panel by March 31, 2023. The goal of the Review Panel is to review the grant applications and determine if eligibility requirements have been met. Eligible applications will then be reviewed and scored according to the Selection Criteria below.

If the Review Panel seeks additional information or clarification from an applicant, a HobbleJog representative will initiate the contact. No Review Panel Member may discuss directly with the applicant any aspect of the application in order to reduce any opportunity for bias. In the event a Review Panel Member has a potential conflict of interest, that member will recuse themselves from scoring and voting on that application.

Applicants will be notified by email of final determination and/or award status no later than April 01, 2023. The HobbleJog Virtual Award and the Fundraising Event is scheduled for April 25, 2023.

SELECTION CRITERIA

The Review Panel will use the following criteria evaluating the applications:

- The applicant's organizational mission aligns with the mission and objectives of the HobbleJog Foundation.
- The grant request articulates an identified post-acute need of the TBI community.
- The grant request describes a proven or innovative approach to providing post-acute resources or services that meet the stated need.
- The program or service has measurable outcomes that will be documented.
- The applicant and applicant's organization are willing to share the measurable outcomes with the HobbleJog Foundation for future public relations and fundraising purposes.
- The applicant agrees to publicly acknowledge the grant assistance and how the funds directly benefit TBI survivors in social media and other publicity platforms.
- The applicant agrees to participate in HobbleJog's online award ceremony.
